

## EQACC SOLAR

# 100-foot collapsible container for tunnels

## Overview

---

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

Do tunnel shipping containers have dual entry points?

Our tunnel shipping containers come with dual entry points, streamlining your loading and unloading. Available in an array of sizes and specifications.

Are collapsible containers good quality?

Our collapsible containers represent great value for money, while also retaining their reputation as the UK's best quality flat pack container. They are manufactured from steel, with ply board flooring in a steel frame, giving them longevity and resistance to damage, intruders and adverse weather conditions.

How many containers can a collapsecon hold?

COLLAPSECON's innovative and fully automated design allows up to 4 containers to be collapsed and combined, giving them a fully laden weight and enabling them to be transported anywhere on a ship. 1/6 COLLAPSECON collapses horizontally, ensuring the container maintains its structural rigidity in any form.
