100ah power station in China in Jordan

Overview

What percentage of Jordan's Energy is renewable?

According to Jordan's Ministry of Energy and Mineral Resources, renewable energy sources contributed around 29 percent of Jordan's total energy output as of the end of July 2022, and the country aims to increase the proportion to 50 percent in 2030.

How many kWh will a 156 megawatt wind farm provide Jordan?

Mohammad Abu Atieh, country manager of CTGI Jordan poses for photos at the Shobak wind farm in the Shobak area, south of Jordan, on Sept. 19, 2022. (Xinhua/Ji Ze) The three projects, with a capacity of 156 megawatts, could provide Jordan with 440 million kWh of clean energy in one year, the manager said.

Are Chinese companies playing a role in Jordan's greener future?

Chinese companies including the CTGI are playing a critical role in Jordan's aspirations of a greener future through environment-friendly power projects, Abu Atieh said. Photo taken on Sept. 19, 2022, shows the Shobak wind farm operated by China Three Gorges International Corporation (CTGI) in the Shobak area, south of Jordan.

Why is China expanding its hydro power plant?

This expansion includes ambitious projects like the world's largest hydro-solar plant, highlighted on interestingengineering.com, showcasing China's commitment to clean energy. The nation is also investing heavily in pumped hydro storage, as detailed on hydropower.org, to address the intermittency of renewable sources.
