# **100kW Photovoltaic Container Terminal at Zagreb Port**

## Overview

---

How is the Zagreb deep sea container terminal connected?

This way, the Zagreb Deep Sea Container Terminal is connected to the network of Croatian motorways i.e. the main TEN-T corridor network. The length of the road D403 from the Port of Rijeka (ZDSCT) to the Škurinje junction on the Rijeka bypass is approximately 3 km with a branch for connection to the network of city roads.

How will PRA finance the Zagreb deep sea container terminal?

PRA intends to concession the operations of the Zagreb Deep Sea Container Terminal in a way that the PRA will finance the infrastructure and the Concessionaire (private investment) should finance the equipment and superstructure as well as operate and maintain the terminal facilities.

What is a concession grantor for the port of Rijeka?

For the purpose of developing and modernizing the port of Rijeka, the concession grantor the Port of Rijeka Authority intends to ensure additional capacities for container handling in the western part of the port of Rijeka, at the location where the new Zagreb Deep Sea Container Terminal is to be built in phased manner:.

What is Rijeka Gateway Project?

In order to achieve competitiveness, the Port of Rijeka Authority has initiated the realization of the new Deep Sea Container Terminal, which guarantees new modern port facilities. This is the most important component of the Rijeka Gateway Project, a terminal designed as a straight pier with a final length of 680 m and an average width of 300 m.
