

## EQACC SOLAR

# 10kW Photovoltaic Energy Storage Container for Oil Refineries vs Diesel Engine

**Higer conversion efficiency**

CAN/RS485/WIFI/4G  
Blue tooth communication

20 Kwh

30 Kwh

50 Kwh

Thick shell, well protection for inside cells

BMS customization supported

## Overview

---

The purpose of this study is to investigate the potential use of solar energy within an oil refinery to reduce its fossil fuel consumption and greenhouse gas emissions. A validated ASPEN HYSYS model w.

Can a diesel generator be used as a photovoltaic system?

In combination, diesel generators and photovoltaic systems are very well suited to energy supply in areas with an unstable or non-existent mains supply. The additional use of solar energy reduces fuel consumption, which saves costs. Furthermore, the integration of a PV system brings a sustainable factor into the system.

Can a PV system save energy?

Whether the goal is to fill in the gap made by grid failure or to reduce fuel expenditure, the PV system can supply additional energy. Batteries can also be used to store the excess energy to be used later on. An energy management system like ePowerControl can ensure fuel saving and optimal operation of the overall system.

Why should you invest in a photovoltaic system?

Quick ROI - Due to the high savings potential, the investment in a photovoltaic system pays for itself after a short time. Reduce CO2 footprint - Generating solar power reduces your carbon footprint. Fuel costs make up the largest part of the cost of producing electricity using diesel generators.

Can a diesel generator be converted into a solar/diesel hybrid system?

For this reason, there is a clear financial justification for converting almost every diesel-powered system into a solar/diesel hybrid system. Every unused diesel kWh saves money. The combination of diesel generators with PV systems quickly pays for itself through the large savings in fuel costs.

## 10kW Photovoltaic Energy Storage Container for Oil Refineries vs D

### Photovoltaic power generation, diesel generation and energy storage

Discover the details of Photovoltaic power generation, diesel generation and energy storage integrated solution for oil and gas extraction at Siny New Energy Co., Limited, ...

[Get Price](#)

### MOBIPOWER Battery Energy Storage Systems ...

MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self ...

[Get Price](#)

### Integrated PV, DG and ESS for Oil and Gas Extraction Side-InnoX Energy

For oil wells located in remote oil regions, it is difficult for the power grid to cover them, so diesel engines are required to provide power for the oil pumps. The use of diesel engines for driving ...
