

EQACC SOLAR

120kW Energy Storage Container for Field Operations in Japan

Overview

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Is Eku energy building Hirohara battery energy storage system?

The developer has agreed to a 20-year offtake agreement for the project with Tokyo Gas. London-headquartered Eku Energy has initiated the construction of the Hirohara Battery Energy Storage System (BESS) in Oh-Aza Hirohara, Miyazaki City, Miyazaki Prefecture, as it seeks to grow its footprint in the promising market.

What types of energy storage systems does Jinko power offer?

Depending on application scenario, Jinko Power provides all types of customers with tailored energy storage system solutions, including power energy storage system integration solutions, industrial and commercial energy storage system integration solutions, and household energy storage systems.

How many GW of energy projects did Japan win?

A total 1.67 GW of projects won contracts, including 32 battery storage systems totalling 1.1 GW and three pumped hydro energy storage projects totalling 577 MW. Japan's Ministry of Economy, Trade and Industry (METI) plans to hold more auctions this year and in the future.
