

EQACC SOLAR

120kW Energy Storage Container for Marine Use

Overview

What is containerized energy storage?

ABB's containerized energy storage solution is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries and all control, interface, and auxiliary equipment are delivered in a single shipping container for simple installation on board any vessel. How does containerized energy storage work?

.

How does a maritime energy storage system work?

The maritime energy storage system stores energy when demand is low, and delivers it back when demand increases, enhancing the performance of the vessel's power plant. The flow of energy is controlled by ABB's dynamic Energy Storage Control System.

Which ships use Corvus Energy Storage Systems?

Corvus has the largest installed base of marine energy storage systems in operation worldwide. Many of the world's first electric powered vessels use a Corvus energy storage system, including the first all-electric fast ferry, tanker, workboat, harbour tugboat, commercial fishing vessel, and more.

What is ABB Marine energy storage?

ABB Marine Energy Storage integrate battery power with any energy source. This enables spinning reserve, peak shaving, enhanced DP with more.

120kW Energy Storage Container for Marine Use

Our products , Corvus Energy

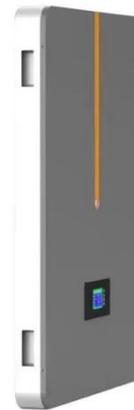

Corvus has the largest installed base of marine energy storage systems in operation worldwide. Many of the world's first electric powered ...
