

EQACC SOLAR

120kW Mobile Energy Storage Container for Wastewater Treatment Plants

Overview

What is a Biocell water containerised wastewater treatment plant?

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. Containerized mobile treatment systems are ready to use immediately on delivery and cater from 60 persons to 20,000 persons capacity.

How much energy does a containerized wastewater treatment plant use?

No planning or buildings are required to operate a containerized wastewater treatment plant - the plant simply needs to be placed on a solid base. This saves costs in advance, and the system is also highly efficient during operation: a 20-foot container only needs 13 kWh/d. Container.One, Container.One+, Container.Pro and Container.Xtra.

What is an intelligent containerised waste water treatment plant?

Intelligent containerised waste water treatment plants are ready to use immediately on delivery. A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary.

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.
