

EQACC SOLAR

**130w high power PD fast
charging portable mobile power
bank**

Overview

130W PD Fast Charging: With dual USB-C ports and one USB-A port, our portable power bank delivers a maximum total power output of 130W, enabling simultaneous charging of three devices. How many devices can a power bank charge?

Whether you're charging your smartphone, tablet, or laptop, you can count on rapid and efficient charging every time. Maximize your charging efficiency with the ability to charge up to three devices simultaneously. Whether you're sharing power with friends or multitasking on the go, our power bank has you covered.

Which power bank is best for high-speed charging?

Lanluk The Lanluk is the best power bank for high-speed charging, thanks to its two 2.1A output ports. They have an auto-intelligent controlling technology, which detects your device's energy rating for fast and safe charging. This also ensures your smartphone doesn't start acting up after using the power bank for a short while.

What are the common capacities available for power banks?

The Power Bank is a key item within our extensive Power Bank selection. Power banks are commonly available in capacities ranging from 2000mAh to 50000mAh. Lower capacities are suitable for phone charging, while higher capacities are ideal for charging multiple devices or larger electronics.

How do I choose a power bank?

Lower capacities are suitable for phone charging, while higher capacities are ideal for charging multiple devices or larger electronics. Consider your specific power needs to choose the right capacity. What advantages does wholesale purchase of power banks offer?
