**15kw high quality inverter  
quotation in Sydney Australia**

## Overview

---

Is a 15kW solar system in Sydney a good investment?

A 15kW solar system in Sydney is an excellent investment for households and businesses looking to save on electricity costs while contributing to a greener future. With high energy output, government incentives, and rapid payback periods, now is the perfect time to switch to solar.

How much does a 15kW solar system cost in Australia?

For Australian households or small to medium-sized businesses chugging through a lot of electricity, a 15kW solar system is just the ticket. Thanks to the Australian government's rebate scheme, solar power is more accessible than ever. The average cost of a fully installed 15kW solar power system is about \$14,917, or around \$0.994 per watt.

What is a 15kW solar system?

In Summary, a 15kW solar system is a powerful and efficient way to harness the power of the sun to meet your energy needs. It's important to choose a renowned and dependable provider if you're thinking about installing a 15kW solar system.

How much does a 15kW solar system cost?

On average, a 15kW solar system costs between \$12,000 and \$18,000 after rebates and incentives. A 15kW solar system with battery storage is an excellent option for those looking to maximize energy independence. By integrating a battery system, you can store excess solar energy generated during the day and use it at night or during power outages.
