1MWh Solar Container Used in Southern European Water Plant

Overview

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

Why should you choose Sunway ESS battery energy storage system?

5□High degree of standardization, integration, rapid deployment, short construction and commissioning period, simplicity and easy maintenance. Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application.

Can solar power plants reduce water consumption?

Deserts and other sun-drenched regions are the ideal location for concentrated solar power plants, but where sunlight is abundant water tends to be scarce. The EU-funded MINWATERCSP project is solving this conundrum, developing technologies to comprehensively cut water consumption at CSP plants.

Can CSP plants help reduce water consumption?

EU-funded researchers are solving this conundrum by developing technologies to comprehensively reduce water consumption, enabling CSP plants to play an even bigger role in addressing the world's energy and climate change challenges.
