

**EQACC SOLAR**

# **200kW Photovoltaic Energy Storage Container for Port Terminals**

## Overview

---

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is a solar grid connection capacity?

- Grid connection capacity = 100kVA. The figures below show the battery behaviour in summer and winter, to observe the impact of seasonal PV solar variation. Performance of a system with 120kWp of PV solar capacity in Summer, showing the small amount of grid energy needed to supplement the solar power.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

Why is energy storage a critical port function?

Ensuring availability of these electrical resources to meet loads which are intermittent and uncertain is becoming a critical port function. It requires investment in multi-vector energy supply chains, energy storage in ports and their associated energy management systems.

## 200kW Photovoltaic Energy Storage Container for Port Terminals

---

### 20ft Container BESS 200kw 500kwh Battery Storage System ...

Cooling Air Cooling System Voltage  
450-850V Application Industrial Energy  
Storage Container Type 10FT/20FT/40FT  
PV Voltage Range 600-850V Inverter  
Type Pure Sine Wave Hybrid ...
