30KVAUpS battery cabinet installation method

Overview

Where can I install the 93e 30 kVA ups?

The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS. Up to two EBCs with a total of four or six battery strings can be paralleled together to extend the run time.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

How is a ups connected to a battery cabinet?

In standalone configurations power wiring is routed using external conduit. Connections are made to easily accessible terminals at the back of the cabinet. Line-up-and-match battery cabinets are installed adjacent to the UPS.

What is the Eaton 93e external battery cabinet?

The Eaton® External Battery Cabinet (EBC) provides extended emergency short-term backup power for the 93E 20-30 kVA and 40-60 kVA UPS to enhance the usability and reliability of the systems. The EBC safeguards operation during brownouts, blackouts, and other power interruptions providing cost-effective extended battery run time.
