

EQACC SOLAR

30kWh Off-Grid Solar Containerized Power Station in Canberra

Overview

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What is a containerised Offgrid system?

Power where the grid can't go — delivered in a single, rugged container. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. What is a containerised off-grid system?

.
