40-foot folding container for base stations

Overview

What is a 40ft platform container?

The 40ft Platform Container is a specialised container for the storage and transportation of odd sized goods which may not fit in any other container. The 40ft is the largest Platform Container available. Available in: 20ft and 40ft. We also offer a folding Flat Rack Container in 20ft and 40ft versions All specifications are indicative.

What is a 40 footer container?

There is also another type of 40 footer container called the 40 Footer High Cube Container where the dimensions are around the same as the 40 footer container except for its height. It's length is around 40 feet or around 12.192m, width around 2.438m and height around 2.896m (which is taller than the 40 footer container, hence its name high cube).

What is a 40 ft shipping container?

These shipping containers are constructed from heavy-duty 14 gauge steel and are quickly becoming the most affordable and versatile option for different uses. Our 40' shipping containers come in various sizes, so you can find one that will fit your needs. Single-trip/One-Trip 40ft Shipping Containers are considered "new" in the industry.

How much cargo can a 40ft container hold?

Compared to a 20ft shipping container, a 40ft container can pack a whopping 2.53 m of cargo for every ton of weight. Meaning, a 40' container can hold up to approximately 26.76 tons of cargo. 40ft units can be used for commercial, residential, and shipping industry applications.
