

## EQACC SOLAR

# 50kW Photovoltaic Energy Storage Container Used in Indonesian Oil Refinery

## Overview

---

Is energy storage developing in Indonesia?

IESR has issued a report for the first time assessing the development of energy storage in Indonesia in *Powering the Future: An Assessment of Energy Storage Solutions and The Applications for Indonesia*.

Will Indonesia build a battery energy storage system by 2022?

The agreement was made with other state-owned bodies, such as the Indonesian Battery Corporation, to build the Battery Energy Storage System by 2022. However, no information has yet been revealed about the Battery Energy Storage System's location or specific functions.

Can solar energy be a strategy to meet Indonesia's energy goals?

Solar energy can be a strategy to meet this target," said Deon Arinaldo, Program Manager of Energy System Transformation, at the launch of the *Indonesia Solar Energy Outlook 2025* study report – *Breaking the Walls: The Future of Indonesia's Solar Energy and Energy Storage Innovations* (15/10/2024).

Does Indonesia need solar & wind energy storage?

Although, there is no policy mandating the installation of energy storage in solar or wind projects in Indonesia, the abundance of solar and wind resources in Indonesia's archipelago and increased potential demand across industries indicate that BESS demand is poised to grow substantially in the near future.

## 50kW Photovoltaic Energy Storage Container Used in Indonesian Oil

---

### Indonesia's Energy Ambitions : Prabowo's 500,000-Barrel Oil Refinery ...

The Indonesian government has announced plans to construct one of the nation's largest oil refineries on Pemping Island, Batam, with a daily processing capacity of 500,000 ...
