

EQACC SOLAR

50kw micro inverter

Overview

What is a 50kVA solar inverter?

A 50kVA solar inverter is an intelligent and multifunctional power conversion and supply device which consists of a solar charge controller, a rectifier, and an inverter. It has multiple power point trackers, a wide input voltage range, an integrated data logger as well as RS485/Wi-Fi interface.

What is a solar power inverter?

The Solar Power Inverter 50kW Hybrid On-Off Grid Inverter is a versatile and high-performance solution for large-scale solar energy systems. Featuring 4 integrated MPPTs with a string current capacity of up to 20A, this inverter maximizes energy harvesting and system efficiency.

How many MPPTs does a solar power inverter have?

Featuring 4 integrated MPPTs with a string current capacity of up to 20A, this inverter maximizes energy harvesting and system efficiency. The Solar Power Inverter 50kW Hybrid On-Off Grid Inverter is a versatile and high-performance solution for large-scale solar energy systems.

What is a 480 volt solar inverter?

The Sol-Ark 60K-3P-480V-N is a 60,000 watt (60kW) three-phase 480Vac output and 97.5% efficiency hybrid inverter that works grid-connected or off-grid for most commercial installations. The single unit operates as a power inverter, battery charger. Solar inverters convert DC solar power into usable household AC power.
