

EQACC SOLAR

ASEAN Solar Container Super Large Capacity Promotion

Overview

The Southeast Asian (SEA) region has witnessed a relentless surge in energy demand, driven by rapid urbanization, industrialization, and economic growth. In response, the exploration and development of re.

Which energy sources will meet ASEAN's energy demand by 2035?

According to the International Energy Agency (IEA), clean energy sources such as wind, solar, modern bioenergy, and geothermal are expected to meet more than one-third of the region's energy demand by 2035. Further, ASEAN's energy demand is expected to grow annually by 3 percent until 2030.

What percentage of Southeast Asia's energy capacity will be renewable?

Member countries aim to meet 35 percent of their energy capacity through renewables by 2025. Presently, ASEAN boasts 28 GW of large utility-scale solar and wind power, contributing 9 percent to the region's total electricity capacity. Solar photovoltaics (PV) play a pivotal role renewable energy revolution of Southeast Asia.

What is the installed capacity of floating PV module in ASEAN?

In the ASEAN region total installed capacity of floating PV was below 1 MW till 2019, but large-scale floating PV module installations grew rapidly in Indonesia, Singapore, Thailand, Malaysia, and Philippines from year 2020 and onwards.

What does AEO8 mean for Asean's energy sector?

AEO8 offers a comprehensive outlook on ASEAN's energy sector, highlighting pathways to energy security, decarbonization, and the expansion of renewable energy (RE).

- 
Efficient Higher Revenue
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 150% Peak Output Power
 - 2 MPPT Trackers, 150% DC Input Overriding
 - Max. PV Input Current 16A, Compatible with High Power Modules
- 
Intelligent Simple O&M
 - IP66 Protection Degree: support outdoor installation
 - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD: prevent lightning damage
 - Battery Reverse Connection Protection
- 
Flexible Abundant Configuration
 - Plug & Play, EPS Switching Under 30ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
