

EQACC SOLAR

Abu Dhabi solar container communication station wind power distribution

Overview

Will ADNOC install solar panels in Abu Dhabi?

During Phase 2, ADNOC Distribution and Emerge will install solar panels to more than 100 service stations across Abu Dhabi. The solar panels are expected to generate nearly 30,000 MWh of renewable energy per year, enough to power nearly one billion smartphones and avoid the equivalent of over 13,000 tonnes of carbon emissions annually.

How many service stations will solar panels be installed in Abu Dhabi?

- Solar PV panels will be added to more than 100 service stations across Abu Dhabi, intended to avoid more than 13,000 tonnes of CO2 emissions annually.
- Milestone marks the second phase of service station solarization program following the successful installation of PV solar panels at 28 service stations in Dubai.

Will emerge bring solar energy to Abu Dhabi service stations?

Eng. Bader Saeed Al Lamki, CEO of ADNOC Distribution, said: “We are pleased to partner with Emerge to bring solar energy to our Abu Dhabi service stations, building on the successful solarization of our Dubai network last year.

How many ADNOC stores are there in the UAE?

Now in its 51st year, ADNOC Distribution has 855 service stations, 543 in the UAE, 69 in KSA, and 243 in Egypt. As a non-fuel retail leader in the UAE, it operates 366 ADNOC Oasis convenience stores, 34 vehicle inspection centers, and other leading services spanning car wash, lube change, and EV charging.
