

# Address of the French battery energy storage container factory

## Battery String-S224

- 1C Charge/Discharge
- Easy configuration and maintenance
- Power supply can be single battery string or parallel battery strings

## Overview

---

Where is the largest battery-based energy storage facility in France?

Paris, December 21st, 2021 – TotalEnergies has launched the largest battery-based energy storage facility in France. Located at the Flandres center in Dunkirk, this site, which responds to the need for grid stabilization, has a power capacity of 61 MW and a total storage capacity of 61 megawatt hours (MWh).

When will totalenergies start a battery storage project in France?

This project was selected as part of the long-term tender launched by the French Electricity Transmission Network (RTE) in February 2020, where TotalEnergies was awarded battery storage capacities in France. The full commissioning of the site follows the start-up of a first 25 MW unit in January 2021.

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: “We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO’s first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.

How much power does a SAFT battery store?

Located in Dunkirk, northern France, and designed and assembled by the company’s battery affiliate company Saft, the facility is made up of 27 containers of 2.5 MWh and boasts a power capacity of 61 MW and a total storage capacity of 61 megawatt hours (MWh).
