

# Advantages of Harare Double Glass solar Curtain Wall

## Overview

---

Can a double-glazing PV curtain wall be used in air-conditioning system?

5. Conclusion Based on exhaust cooling and heat recovery technology, this study proposes the novel double-glazing PV curtain wall system combined with the AHU in the air-conditioning system.

Does exhaust ventilation double-glazing PV curtain wall work?

To address these problems, this study proposes a novel exhaust ventilation double-glazing PV curtain wall system (EVPV) combined with an air handling unit (AHU) based on waste heat recovery (HR). This hybrid system cools the PV curtain wall by utilizing exhaust air as a coolant.

Can a PV double-glazing curtain wall system be combined with an ahu?

Accordingly, this study aims to develop a novel exhaust ventilation PV double-glazing curtain wall system (abbreviation: EVPV) combined with an AHU using HR technology during the air handling process in summer.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, façade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?

## Advantages of Harare Double Glass solar Curtain Wall

### Advantages of Algeria's double-glass solar curtain wall

At the same time, glass curtain walls are a popular design in modern high-rise buildings, because they are not only beautiful but also use natural lighting to reduce lighting energy consumption.
