Algiers energy storage project has been completed

Overview

What are Algeria's key energy projects in 2025?

Algeria is advancing several key energy projects in 2025, aimed at increasing natural gas production, expanding electricity generation and enhancing renewable energy capacity.

How many MW does Algeria's new power plant generate?

Both plants, being developed by Algeria's state-owned Sonelgaz, will each generate 1,340 MW. Both projects are expected to start operations in 2025 and are expected to enhance Algeria's power generation infrastructure while supporting energy security and fuelling the country's economic growth.

Why are Algeria and Italy collaborating on a submarine electricity cable project?

In a move to strengthen energy ties with Europe, Algeria and Italy are collaborating on a submarine electricity cable project. This cable will facilitate the export of electricity generated from both natural gas and renewable energy sources in Algeria.

Will Algeria increase gas exports in 2025?

First gas production is expected by 2025, positioning Algeria to increase gas exports amid anticipated demand growth in Europe. Submarine Electricity Cable with Italy In a move to strengthen energy ties with Europe, Algeria and Italy are collaborating on a submarine electricity cable project.
