

**EQACC SOLAR**

# **Alternative Solution for 30kW Photovoltaic Folding Container**

## Overview

---

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a solarfold photovoltaic container?

at full power. The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What is a solarcontainer?

The Solarcontainer is a mobile system that can be used for both on- and off-grid purposes, including rescue missions and gatherings. the foldable photovoltaic panels are tucked inside a mobile solar container The mobile solar container can take up to five hours to assemble and make it operational.

## Alternative Solution for 30kW Photovoltaic Folding Container

### Modular Solar Power Station Container Factory

Mobile Solar Power Container Manufacturers and Modular Solar Power Station Container Factory. Integrating independent research and development, production, sales, and service, we are ...
