Amsterdam 40-foot folding container

Overview

What is a 40ft container?

The 40ft 8.6 container is one of the most commonly used containers for transport worldwide. This container is CSC approved and meets ISO standards. The 40ft standard container is also suitable for storage of goods. The 40ft container is for rent, but also for sale, both new and used.

What is a 40ft open top container?

The 40ft container is for rent, but also for sale, both new and used. The 40ft Open Top Container is suitable when loading through the standard doors is simply not practical and the goods have to be loaded via a crane. A 40ft Open Top container does not have a steel roof but a container tarpaulin which is used as a roof.

Where can I buy a container?

Then buying your own container from Van Doorn Container Sales & Rentals is the ideal solution. We supply containers in various sizes and designs. The 40ft 8.6 container is one of the most commonly used containers for transport worldwide. This container is CSC approved and meets ISO standards.

What is a 40ft high cube container?

A 40ft High Cube Container is approximately 30cm higher than the standard 40ft container. This allows you to load your cargo or goods higher than in a standard container. The 40ft High Cube container is for rent, but also for sale. The 40ft High Cube Double Door container has extra loading space.
