

# Asunción Solar Container Two-Way Charging

## Overview

---

Can I Opt in to solar two-way charging?

Yes, you can opt in to solar two-way charging, however you will see a \$0 solar export charge on your bill. More information about solar rates in your state.

What is two-way charging?

Two-way charging is a two-way solar tariff for residential and business solar customers. It's designed to: encourage customers to export excess energy generated at times when it's needed the most. Why do we need two-way charging?

Will I get a \$0 solar export charge in 2025?

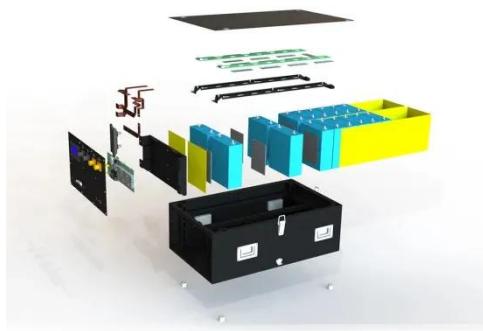

From 1 September 2025, some customers in New South Wales and South Australia, will see a \$0 solar export charge on their bill. If we do implement a charge, we'll let impacted customers know before this happens. Can I opt into two-way charging?

How do we manage exporting solar energy back to the grid?

This means the way we manage exporting excess solar energy back to the grid needs to change. In 2021, the Australian Energy Market Commission (AEMC) identified we need to support the integration of rooftop solar more efficiently into the electricity grid. One solution is the introduction of two-way charging.
