BESS container generator in Antwerp Belgium

Overview

Is totalenergies developing a second battery storage project in Belgium?

Download the Press Release (PDF) Antwerp, Ap- On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the Company announced the development in Belgium of a second similar project. The new project will be developed on the site of TotalEnergies' depot in Feluy.

Does totalenergies have a power plant in Belgium?

TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium. TotalEnergies has initiated a battery energy storage project at its Antwerp refinery in Belgium. The installation boasts a power rating of 25 MW and a capacity of 75 MWh, sufficient to meet the daily consumption of nearly 10,000 households.

What is the new Bess project?

The new project will be almost identical as the one launched in March last year and should go live by end-2024. The new BESS will be installed on the site of TotalEnergies' depot in Feluy, Hainaut province, and will consist of 40 Intensium Max High Energy lithium-ion containers.

When will totalenergies start-up in Belgium?

Start-up is expected at the end of 2025. These two projects, which represent a global investment of nearly €70 million, will bring TotalEnergies' storage capacity in Belgium to 50 MW / 150 MWh. These battery storage sites play a key role in the resilience of the electricity system, providing flexibility and helping solve grid congestion problems.
