What Is a Battery Management System?

.

What is a BMS solution?

BMS solutions are indispensable in applications employing intelligent battery systems, significantly enhancing performance and extending battery longevity across a wide spectrum of industries. Explore a selection of our premier BMS products below.

What is a lithium battery management system (BMS)?

It can be widely used in AGV, tricycle, electric motorcycle, portable energy storage and other fields. This BMS is designed for the management of 7-16 series lithium batteries, with a continuous charge and discharge current of 100A. It features an integrated design that combines functions such as data collection, management, and communication.
