BMS battery profit

Overview

What is the market size of battery management system (BMS)?

The battery management system (BMS) market is projected to rise from USD 10.2 billion in 2025 to USD 23.3 billion by 2035, growing at a CAGR of 8.6%. Lithium-ion BMS will capture 44% of market value in 2025 due to widespread use in EVs, storage systems, and electronics. The automotive sector alone will expand at 7.4% CAGR.

How much is the battery management system market worth in 2024?

The battery management system market is valued at USD 13.2 billion in 2024 and is expected to reach USD 26.8 billion by 2030, growing at a CAGR of 12.5%.

What drives the global battery management system (BMS) market?

Between 2020 and 2025, the global battery management system (BMS) market experienced considerable growth. While EV adoption became a major driver, another factor propelling BMS demand was the growth of renewable energy projects.

How will the UK battery management system market grow in 2025?

The U.K. battery management system market is expected to grow at a notable CAGR from 2025 to 2030. The increasing demand for BMS in the energy sector and the development of advanced BMS systems for applications such as energy storage systems are boosting the growth of the U.K. BMS market.
