Bahrain Communications Green Base Station Construction Specifications

Overview

What is a building completion certificate in Bahrain?

"Building completion certificate": Certificate issued by Municipalities in Bahrain, as soon as the entire construction work has been carried out, inspected and approved by Municipalities in Bahrain. "Building envelope": The exterior elements of a building which form a barrier between the internal and exterior spaces.

How to maintain a building in Bahrain?

The building owner must enter into a service contract with a maintenance company approved by Municipalities in Bahrain or provide evidence that equipment will be properly maintained by competent members of their own staff.

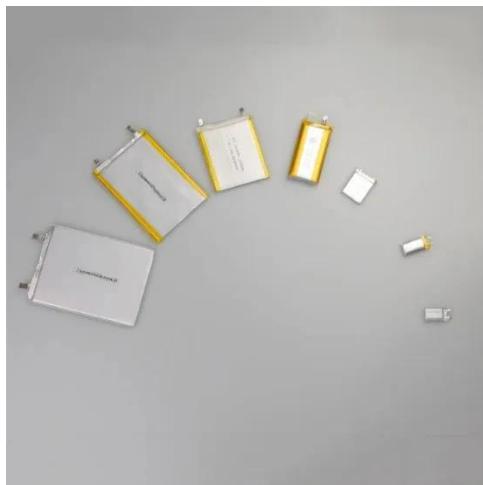

Can I use a paint in a building in Bahrain?

For all designated buildings, including new uses in existing buildings, all paints and coatings used in the building should not exceed allowed limits of Volatile Organic Compound (VOC), these paints and coatings must be accredited/certified from Bahrain Central Lab or any source approved by the Competent Authority.

Do you need a waste receptacle storage facility in Bahrain?

For all new villas and apartments, domestic kitchens must be provided with a Bahrain Municipalities prescribed minimum storage facility for waste receptacles clearly labelled for 'recyclable' and 'non-recyclable'. The storage facility should be in a properly designated location within the kitchen.
