Bangkok Electrical solar container battery Plant

Overview

Will sunwoda build a battery plant in Thailand?

Text: Huaxia Energy Network On March 13, Thailand's Board of Investment (BOI) announced that it approved Sunwoda (SZ:300207) Sunwoda (SZ:) to invest more than 50 billion baht (about 10.8 billion yuan) to build a battery production facility in Thailand.

Will Thailand become a regional battery manufacturing hub?

The move strengthens Thailand's EV and energy storage supply chain as the country pushes to become a regional manufacturing hub. China's leading lithium battery producer Sunwoda has received approval from Thailand's Board of Investment (BOI) for a THB 50 billion (\$1.5 billion) investment in local battery manufacturing.

Does Thailand need a battery energy storage system?

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see the country struggle to fulfil carbon neutrality and Net Zero commitments over the coming decades.

Why should EV batteries be produced locally in Thailand?

"Today marks a milestone in the development of Thailand's EV supply chain, as having EV battery cells produced locally will significantly reinforce our status as a manufacturing hub for EVs and hybrids, and increase the country's competitiveness," said Narit Therdsteerasukdi, Secretary General of the BOI.
