

EQACC SOLAR

Battery cabinet fire fighting equipment

◆ PRODUCT INFORMATION ◆

-  **BATTERY CAPACITY**
50kWh~500kWh
-  **DC VOLTAGE RANGE**
400V~1000V
-  **DEGREE OF PROTECTION**
IP54
-  **OPERATING TEMPERATURE RANGE**
-10~50°C

Overview

Why should you use a FirePro battery storage system?

Utilizing total flooding technology, FirePro systems quickly cool and smother fires, reducing the possibility re-ignition and thermal runaway propagation. Tested and proven, they ensure rapid, efficient fire control, making them essential for safeguarding your battery storage solutions.

Are battery charging cabinets fireproof?

Modern lithium batteries are prone to overheating and even catching fire due to overcharging, unstable currents, or other reasons during charging. Battery charging safety cabinets, with their fireproof and explosion-proof designs, effectively prevent these accidents.

Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

What is a battery safety cabinet?

Additionally, these safety cabinets are equipped with anti-static devices to prevent battery damage or accidents caused by static electricity. With the rapid development of the new energy industry, the application of batteries in energy storage is also becoming more extensive.
