

EQACC SOLAR

Battery cabinet solar cells in Mozambique

Overview

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Should Mozambique export electricity?

One of the big challenges of Mozambique is its size and shape, which make the transportation of electrons across the country quite expensive. Exporting electricity would bring foreign currency that can support investments in domestic transmission and distribution infrastructure.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

Battery cabinet solar cells in Mozambique

Mozambique: Solar, battery energy storage plant kicks into ...

Commercial operations at the 19 MWp Cuamba Solar PV and 7MWh battery energy storage plant in Mozambique are officially underway.

Mozambique photovoltaic energy storage project

Mozambique's Ministry of Mineral Resources and Energy (MIREME) has announced the launch of a new tender for decentralized solar photovoltaic (PV) and battery energy storage systems ...

- LiFePO₄
- Wide temp: -20°C to 55°C
- Easy to expand
- Floor mount&wall mount
- Intelligent BMS
- Cycle Life:≥6000
- Warranty :10 years

Flash in The Pan Or Sustainable Solution?
While Mozambique is the first benefactor of a large-scale, comprehensive solar plus storage solution in Africa, it is unlikely to be the last. Challenges in replicating this project on the continent certainly abound, but they are primarily commercial rather than technical. Utility-scale battery services are still somewhat foreign in Africa, and the See more on [cpcs.ca](https://www.cpcs.ca)
