

# Battery energy storage in Tampere Finland

## Overview

---

Does Finland have a battery storage market?

The battery storage market in Finland has been relatively quiet in the past year compared to neighbouring Sweden. A few large-scale projects have been added to wind farms, like ones for power generators Ilmatar Energy and EPV Energy reported on by Energy-Storage.news.

Who is deploying a 30mw/36mwh battery energy storage system in Finland?

Taaleri Energia and Merus Power have partnered to deploy a 30MW/36MWh battery energy storage system in Finland, one of the country's largest.

What is the future of energy storage in Finland?

Reserve markets are currently driving the demand for energy storage systems. Legislative changes have improved prospects for some energy storages. Mainly battery storage and thermal energy storages have been deployed so far. The share of renewable energy sources is growing rapidly in Finland.

Where will Taaleri Energia invest in a battery energy storage system?

Taaleri Energia announces its first battery energy storage system investment. Taaleri Energia will invest in a 30 MW / 36 MWh battery energy storage system in Lempäälä, some 25 kms south of Tampere. The facility will be one of the largest battery energy storage systems operating in the Finnish frequency reserve market.
