Bissau grid-connected inverter manufacturer

Overview

Who is auxsol solar inverter?

AUXSOL is committed to creating reliable solar inverter solutions for users, and has been ranked China's top 500 enterprises for many years. As one of China's leading solar inverter manufacturers and solar inverter suppliers, AUXSOL provides photovoltaic system inverters all over the world.

What is a residential solar inverter?

The residential solar inverter solution is mainly composed of PV modules, inverters, grid-connected boxes, and other main components. The residential 3.6-25kW on-grid solar inverter system can adapt to different rooftops. Our residential solar inverters support 4G/WIFI/RS485 communication with the AUXSOL cloud monitoring platform.

What is a multi-mode inverter?

Also known as multi-mode inverters, these integrate solar production, battery storage, and sometimes even generator input. They manage energy flow intelligently, enabling backup power, self-consumption, and time-of-use optimization. Best suited for: Homes or businesses using solar plus batteries.

What is a hybrid inverter?

The EH, ET, and BT Series hybrid inverters are designed for residential and small commercial use, offering high efficiency, seamless battery integration, and smart load control. The SEMS Platform is a cloud-based monitoring and analytics tool that provides real-time insights into solar system operation, battery usage, and grid interaction.
