Black Mountain Energy Storage Charging Station

Overview

What is Black Mountain Energy Storage?

Black Mountain Energy Storage is a team of energy experts who develop and operate battery energy storage facilities. We were founded in 2021 to bring reliable energy storage capacity to the electric grid that will enhance system reliability and enable greater reliance on renewable generation.

Can Black Mountain capitalize on the growing need for battery energy storage?

Agile, visionary, and well-funded, Black Mountain is well poised to capitalize on the growing need for battery energy storage.

What are the requirements for a battery energy storage facility?

A property needs to be at least 5-10 acres and located near or adjacent to existing electric transmission infrastructure in order to comfortably accommodate a battery energy storage facility. If you would like to participate, these are the steps you can expect:.

What makes Black Mountain a great partner?

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, affirming our commitment to developing resilient renewable energy resources throughout Texas.
