Bogota Solar Folding Container 30kWh

Overview

What are containerized mobile foldable solar panels?

Containerized mobile foldable solar panels are an innovative solar power generation solution that combines the mobility of containers with the portability of foldable solar panels, providing flexible and efficient power support for a variety of application scenarios.

What is Sunbox 35A – mobile solar container?

SunBOX 35A – mobile solar container. This container is created to achieve the highest level of efficiency. Thanks to its solar tracking system, it always keeps the PV panels properly oriented. This solution lets you avoid any significant power drops during the day thus get the most out of your panels.

What is a mobile solar container?

Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems. It wouldn't be possible to create such a convenient system without the highest quality hydraulics. The entire system is designed by our engineers with long-standing experience in special mobile constructions.

How much solar area does a mobile solar container offer?

Up to 70 m² PV area. Our Mobile Solar Container is available in version 20'. It offers a vast solar area of up to 700m². One person in 15 minutes. It is really that fast to prepare the container. It is especially useful in bad weather when you can quickly fold the panels to prevent any potential damage.
