Buenos Aires Solar Storage Container 10MWh

Overview

What does Argentina's 1.3 GW battery storage tender mean for Latin America?

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

How much will Buenos Aires invest in storage capacity?

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

What is the Buenos Aires metropolitan area (Amba) tender?

The heart of this tender, which also comes officially as AlmaGBA, is a strategic desire to stabilize the grid of the Buenos Aires Metropolitan Area (AMBA). Similar to most Latin American cities, AMBA is under the pressure of expanding energy demand, the deterioration of infrastructure, and the frequency of extreme weather conditions.
