Overview

What is Bulgaria's first hybrid wind-solar energy project?

Konstantin Nenov, director of Bulgaria-based investment firm Renalfa AD, told pv magazine that construction has started on Bulgaria's first hybrid wind-solar energy project. Called Tenevo Solar, the project is planned to have a solar capacity of 237.58 MW, a wind capacity of 237 MW and a storage capacity of 250 MW-500 MWh.

What is Bulgaria's first hybrid power facility?

Constructing Bulgaria's first hybrid power facility, the 237-MW Tenevo Solar Park. It will be accompanied by 250 MW of wind turbines and 250 MW/500 MWh of battery storage. A joint investment by Eurowind Energy and Renalfa IPP, it will drive Bulgaria's green transition and provide a strong boost for renewable energy in southeast Europe.

How will Eurowind energy & renalfa IPP boost Bulgaria's green transition?

A joint investment by Eurowind Energy and Renalfa IPP, it will drive Bulgaria's green transition and provide a strong boost for renewable energy in southeast Europe. Construction has begun on the 237-MW Tenevo Solar Park in Bulgaria, which is the first phase of a large renewable energy complex.

Is Bess a good choice for solar power projects in Bulgaria?

In September, it inaugurated a hybrid solar power and storage facility in Pernik. BESS has become a standard element of PV projects in Bulgaria. In addition, the country's battery manufacturing capacity is growing and the government has completed its tenders for state support to BESS combined with renewable energy plants, and for standalone units.
