# Cape Verde wind power system manufacturers

## Overview

---

Does Cape Verde have a wind farm?

The Cape Verde government has signed a contract with the domestic partly state-owned wind power operator, Cabeolica, to support its wind farm expansion and battery installation projects in the archipelago nation off the West African coast. Image credits: Alamy Stock Photo.

When will Cape Verde's wind farm expansion start?

Works on the wind farm expansion are due to commence in July 2024. Cape Verde's renewables account for 20% of the total installed capacity in the country, according to ALER, the renewables association of Portuguese-speaking African countries.

What is cabeolica wind farm?

The Cabeolica wind farm, set across four islands of the Cape Verde archipelago, has led the way in wind power generation in Africa. The project company, Cabeolica S.A., was established by the founding partners in 2009 and began generating power from September 2011.

How can Cape Verde save money on fuel imports?

The company will also add a battery energy storage system (BESS) with a capacity of 9 MW/5 MWh in Santiago and another unit of 6 MW/6MWh on the island of Sal. The new facilities will contribute to annual cost savings of around CVE 1 billion in fuel imports, according to Cape Verde's minister of industry, trade and energy Alexandre Monteiro.
