Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

Will centralized UPS systems continue to dominate data centers?

Some clear trends emerge, notably that centralized UPS systems will likely continue to dominate in data centers with at least 1 megawatt of IT capacity, especially in those owned by enterprises and colocation providers.
