Overview

How to choose a power bank for camping?

Last update on 18th September 2025 / Images from Amazon Product Advertising API. Choose power banks with minimum 150Wh capacity and 20,000mAh to charge smartphones 4-6 times during camping trips. Prioritize lightweight models between 3-6 pounds with impact-resistant construction and Battery Management Systems for outdoor durability.

Do you need a power bank for a wilderness trip?

On the other hand, if you're planning to spend multiple days in the wilderness carrying a number of different devices (like a GPS, phone, GoPro and digital camera), then you're going to need one of the bigger power banks around (probably 20,000mAh+).

Should you bring a power bank on a hike?

Some old-fashioned hikers might roll their eyes and groan at the suggestion of bringing a power bank on a hike. They'll moan about something like outdoors supposedly being about getting away from modern life. But don't take any notice of that because a power bank can be as much a necessity as it can be a luxury on a hike.

Should you buy a portable power bank Charger?

The portable power bank charger market can be a tough one to navigate, because prices fluctuate wildly from bargain bucket to eye-wateringly expensive for what can often look like the same product. But we've been using this particular power bank for around 18 months now and it's never let us down.

Charge outdoor power bank while walking

Best power banks and portable chargers for running & hiking

While this is a step down in charging capability from the Iniu B63 (above), it's still a very good power bank. Charging is quick - about 2 hours from 0% to 100%.
