# **Chile Valparaíso solar container battery**

## Overview

---

Which energy storage projects are co-located with solar plants in Chile?

Three utility scale battery energy storage projects co-located with solar plants were announced last week in Chile. Enel is building a 67 MW/134 MWh battery, while CJR Renewable and Uriel Renovables are planning 200 MW/800 MWh and 90 MW/200 MWh projects, respectively. From pv magazine EES News site.

Which companies are building large-scale battery energy storage projects in Chile?

Enel is building a 67 MW/134 MWh battery, while CJR Renewable and Uriel Renovables are planning 200 MW/800 MWh and 90 MW/200 MWh projects, respectively. From pv magazine EES News site three different developers announced separate large-scale battery energy storage (BESS) projects collocated with solar farms in Chile.

Where is Enel Chile deploying a 67 mw/134 MWh battery?

Enel Chile, the local subsidiary of Italian energy company Enel, said it will deploy a 67 MW/134 MWh battery at the El Manzano solar power plant. The solar project with a capacity of 99 MW is located in the town of Tilttil, in the Chacabuco Province, Santiago Metropolitan Region.

How many solar panels does Sol del Desierto generate a year?

With 582,930 solar panels distributed over 479 hectares, Sol del Desierto generates around 714 GWh per year. The PV plant has been operating under a 15-year power purchase agreement (PPA) inked between Atlas Renewable Energy and Engie Energía Chile, the Chilean unit of French energy giant Engie, supplying 550 GWh of electricity annually.
