

EQACC SOLAR

China solar container communication station low voltage distribution cabinet GGD solar panel manufacturer

Overview

What is a GGD AC low-voltage distribution cabinet?

For low-voltage solar power stations that are connected to the grid, the PV grid connected cabinet can also incorporate additional devices for functions like measurement and protection. GGD AC low-voltage distribution cabinets are suitable for power plants, substations, and industrial enterprises.

What is GGD low voltage switchgear?

1.Product Overview GGD low-voltage switchgear is suitable for power distribution system of AC 50 Hz, rated working voltage 380 V and rated working current 3150 A in power plants, substations, and industrial enterprises, etc. It is used as lighting, electric energy conversion, distribution and controlling of distribution equipment.

What is PV Grid connected cabinet?

IPKIS presents PV grid connected cabinet, a crucial part of solar systems that acts as the main connection point between a solar power station and the electrical grid.

What is a GGD cabinet?

3.Structure GGD adopts the general purpose cabinet body, its frame is made of 8MF cold forming sectional steel by means of partially welding and combination, the frame parts and special supporting parts are provided by the appointed manufacturer, so as to guarantee the cabinet accuracy and quality.

China solar container communication station low voltage distribution

China Switchgear

Scope of Application GGD AC low-voltage power distribution cabinet is suitable for power users such as power plants, substations, industrial enterprises and other power users ...
