# **Community uses 10MW off-grid solar container from Georgia**

## Overview

---

Does Georgia Power have a size cap for distributed solar+storage?

Georgia Power had restrictive size caps for distributed solar+storage, and limited access for multifamily and low-income customers under the Solar for All program, Russ Bates, founder and CEO of NXTGEN Clean Energy Solutions, who testified in front of the commission earlier this year, told pv magazine USA.

Does Georgia have a solar market?

National Solar Capacity Ranking: 7th Data Current Through: Q1 2025  
Georgia's solar and storage market has taken off in recent years, landing it a top spot in SEIA's national solar rankings. During the 2024 session, an industry-supported decommissioning bill was passed after much collaboration and effort.

Is Georgia Power receptive to community solar?

While Georgia Power has historically pushed back against community solar, Bates said, " Georgia Power seems to be receptive to community solar." Georgia Power needs more electrons, he said.

Will Georgia Power support community solar?

Georgia Power's agreement to provide support for community solar does not mention whether it would enable private developers to own community solar projects, nor does it provide any other details to what the program would entail. However, to Bates, the agreement is good news.
