

EQACC SOLAR

Construction of solar container communication station inverter in Botswana

Overview

Where is Scatec ASA building a solar power plant in Botswana?

In March, Scatec ASA began construction of a 100-megawatt solar power plant in Botswana's northeast. The initial 60 megawatts of this project are expected to come online by the end of this year. The Ministry of Minerals and Energy is also working on additional renewable energy projects.

How will Scatec power plant work in Botswana?

The power plant is Scatec's first in Botswana and will generate predictable revenues from a 25-year power purchase agreement (PPA) with Botswana Power Corporation, the national utility. The remaining 60 MW of the project is currently under construction and is expected to be completed in the beginning of 2026.

Will China build a 100-megawatt solar power plant in Botswana?

A Chinese consortium, led by China Harbour Engineering Company, has secured a contract to build a 100-megawatt solar power plant in Botswana. This project supports the country's revised Integrated Resource Plan, which aims for a 50% renewable energy share by 2036. Scheduled for completion in 2026, the solar plant will.

When will Botswana's second solar power plant be completed?

The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026. Botswana has awarded a major contract to build a 100-megawatt solar power plant to a group of Chinese companies led by China Harbour Engineering Co.
