

## EQACC SOLAR

# Copenhagen containerized energy storage vehicle BESS

## Overview

---

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power. This project is scheduled for grid readiness by spring 2026. How will a Bess project help Denmark's energy grid?

Denmark's energy grid, which has been a frontrunner in incorporating wind power, remains exposed to periods of imbalance and price fluctuation, and BESS installations will offer useful management and optimization. The Everspring portfolio, financed by Ringkjøbing Landbobank, is intended to provide flexible capacity to the Danish grid.

Who will supply Copenhagen Energy's 132 MWh Everspring battery energy storage system?

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will be supplied by Huawei Digital Power. Image: Huawei Digital Power. Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power.

What is European energy's new Bess project?

European Energy's new BESS project marks a significant step in the company's strategy to support the integration of renewable energy systems and improve energy efficiency in Denmark and beyond.

What does Bess stand for?

Danish renewable energy developer Copenhagen Energy has brought to the shovel-ready stage a portfolio of 156 MWh of battery energy storage system (BESS) projects in its home country. Battery energy storage systems (BESS)
