Danish Power Company Energy Storage Policy

Overview

How has Denmark's power sector changed over the past 30 years?

Denmark's power sector has undergone a transformational shift over the past 30 years from coal-dominated generation to mostly renewable sources. Power generation from renewable sources rose nearly 30-fold from 1990 to 2020, from 3% of the generation mix to more than 80%.

Will gas storage Denmark increase filling levels ahead of winter season?

The Danish Energy Agency has requested Gas Storage Denmark to initiate a tender aimed at increasing the filling levels of Denmark's two underground gas storage facilities ahead of the winter season. 08. July 2025.

What is the Danish Energy Agency?

The Danish Energy Agency provides a single point of access for project developers through the permitting and approval process.

How many GW of offshore wind power are there in Denmark?

Today the Danish Energy Agency is announcing tenders for three areas for the establishment of at least 2.8 GW of offshore wind power. The tenders are based on thorough market dialogues and includes, among other things, state subsidies and greater flexibility for developers to increase the likelihood of qualified bids. 20. November 2025
