# Dili solar panels solar panels

## Overview

---

How many solar panels are there in DLI?

Nowadays, in all the districts, with the exception of Díli, there are sucos with solar panels, where two thousand, one hundred and forty three families are covered in the whole territory. For the acquisition of this source of energy, the process is identical to the one that applies to the remaining projects.

When were solar panels installed in DLI?

The first solar panels were installed in 2008. Nowadays, in all the districts, with the exception of Díli, there are sucos with solar panels, where two thousand, one hundred and forty three families are covered in the whole territory.

What is a photovoltaic project in Timor-Leste?

Just as the remaining renewable energies sources that are being explored by the Government in Timor-Leste, the photovoltaic units (or solar project) implementation project is specially directed for the families that live in remote areas, where difficulties still exist in the national energy network installation.

What is GSOL energy's solar PV installation in Bujumbura?

GSOL Energy's Solar PV Installation in Bujumbura - renewable and sustainable energy. In collaboration with the World Food Programme (WFP) and Sanimhy Energy, GSOL Energy has successfully installed and commissioned a 20 kWp solar PV system for the Digital Learning Center in Dori, Burkina Faso.
