# **Dominic Solar Air Conditioning Light Truck**

## Overview

---

How does a 24V truck air conditioner work?

Fresh air system: 24V truck air conditioner (or 24 volts) is installed with a fresh air system to keep the cab fresh. Strong cooling capacity: the cooling capacity of the air conditioner in the electric cab is as high as 3800W/12920Btu (if you need an air conditioner with a larger cooling capacity, we can provide customized services).

What is a truck sleeper air conditioner?

Truck sleeper air conditioner, also known as a truck parking air conditioner, is an independent air conditioning system installed in the cab of a truck. It does not need the engine to run or use fuel to work but uses electricity or other energy sources to provide cold or hot air. Keep the driver comfortable when stopping for a rest.

What is a truck air conditioner?

A truck air conditioner, which may be called a truck cab air conditioner, is an air circulation system used inside a truck cab to maintain comfort in the cab by regulating temperature, humidity, and flow.
