

**EQACC SOLAR**

# **Dublin Solar Container Energy Storage Manufacturer**

## Overview

---

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

What is Eir Solus?

Eir Solus develops stand-alone battery storage systems as well as hybrid energy systems that link battery storage with wind and/or solar plants. Batteries are an important building block of the energy transition, as they stabilise electricity grids and enable a faster expansion of renewable energies.

Which battery energy storage systems are available in 2023?

The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage. The Poolbeg Battery Energy Storage System in Dublin went into operation in November 2023 and has the capability of providing 75MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.
