Energy storage power station in Gothenburg Sweden

Overview

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

Where will Sweden's new energy storage facility be located?

The storage facility will be at a site in Forsmark, which is about 130 kilometers (81 miles) north of Stockholm. "We are doing this to take responsibility, both for the environment and people, but also for Sweden's long-term electricity production and Swedish jobs," Environment Minister Annika Strandhall said at a press conference.

Why did batteryloop install energy storage in Gothenburg?

In Gothenburg, Batteryloop installed energy storage in the middle of the city's electricity grid. The company adds that the installation allowed the new Humlestaden district to contribute positively to Gothenburg "even before the district is fully developed" by supporting the local grid with power during peak hours.
